Why Manage Travel and Entertainment (T & E) expenses

Auspac ERMS (Expense Report Management System) is a SQL and work-flow based system that takes over the entire expense management process to ensure a simple, fast, consistent, complete, and highly cost efficient solution.
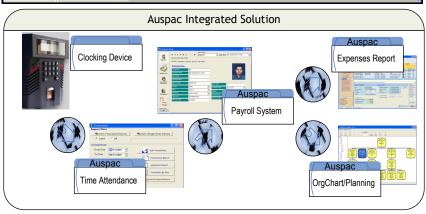

Smart Organization Chart with HR Planning

The system enables you to graphically represent the inter-relationships among people, operations, functions, or activities in an organization. It is easy to plan your organization hierarchy to keep pace with your changing organization.

Streamlines the payroll process for organizations

Auspac Payroll streamlines the payroll process for organizations. It is a comprehensive and flexible system incorporating all the capabilities required by a HR/Personnel department.
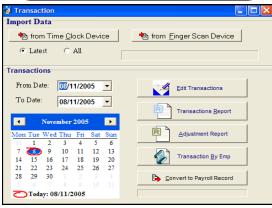

Smart Organization Chart with HR Planning

Auspac Time Attendance is standard yet customisable to meet your unique needs. With features like shift scheduling, definable attendance rules and reporting capabilities, it takes care of your business needs.
