Comprehensive Payroll System for SME/SMI

Auspac Payroll streamlines the payroll process for organizations. It is a comprehensive and flexible system incorporating all the capabilities required by a HR/ Personnel department. The system assists the users in providing accurate and timely payroll processing. It offers innovative, industry leading features, as well as the standard functions you expect from any local payroll product.

The variety of automated features greatly reduces the amount of time it takes to process each payroll period. Auspac Payroll system caters for monthly, daily, piece work, temporary and contract workers with either monthly or/and semi-monthly pay periods. It provides companies with flexibility in setting up a variety of deduction and income codes. Auto generation of government reports and forms, auto calculation of annual leave, and pay slips in multi language are standard features of the system. The system accommodates unlimited staff records creation, changeable deduction tables for easy update, configurable annual leave and holiday groups, and definable OT formulas.

Auspac system is a hassle free from preparing statutory reports like EA Form, CP39, etc. In addition, the system keeps records of the cash advance, personal loans, direct deposits to bank, and as well as pay rate and bonus history. It contains many reports and listings, standard HR letters, forms and reports, and bank specific letters and documents. Furthermore, the system can link to Auspac Time Attendance System for data sharing and computation of attendance records.
